This was done early on the morning of the election, and for the plain purpose of intimidating the Domogratic voler, who were very largely in the majority, and thus seen ing the triumph of the Bramlette ticket. It had the desired effect, for out of about four hundred

The General is better known as a brave and skillful officer is better known as a prave and skillful officer then as an erator—still his speech had a true clang of Kentucky manhood in it, that stirred the paise. In such hot weather as this heavy rains would fail to raise the river any. The late rise in the Missouri seems to have enddenly be-

come absorbed by the powerful rays of the sun; and, so far from improving the river, the Missour is declining and very difficult to navigate. There is only 5% feet of water at Herculaneum which is the worst place in the river below St. Louis. It is filling. There is probably 7% feet at

Gen. Beauregard Sends a Flag of Truce.

> [Special to the Baltimore American.] FLAG-SHIP DINSMORE, OFF CHARLESTON, August 16.

Since Monday events here have been rather nonotonous. We have been exchanging shot and shell with the rebels night and day—prob ably with but little damage to either side. The enemy's object was 10 retard Gen Gillmore's siege works, but they have all been perfected ter several days.

The inien ion to open on the 18th was abau

doned on account of some defficulty as to the quality of the amunultion, and owing to the ser one indisposition of General Gillmore. He is, however, much better, and the opening of the heavy siege works will commence at day light to-morrow.

The shore but-ries, in getting the range of

their guns y sterday and the day before, knocked three beles in the wals of Sumpter. The general impression prevails that the rebels are evacuating Sumpter, and will blow It up as soon as the assault commences.

Out of nearly 30 guns on the parapets ten days ago, but six new remain, and most of those in casem uses had previously disappeared The rebeis have erected a line of earthworks a mite long on James Island, from For: Jun son to S cossionville, although they have bu-few grus mounted yet. This is supposed to be the destination of Sumpter's grus. Our plaket boats around Sumpter report

great acilvi y every night with schooners, stempers, &c., The weather is fine and very calm, and most avorable for operations. The sun is bot, but here are good sea bre zea and occasional thunder storms. Everything is now in readiness on the sea shore, and all are looking forward to the work to morrow, cer

Redforcements continue to arrive daily, and quite a large army is now on the Island. We doesday night the rebeis fired on our works will prape and canister, on information received from two suclers, who deserted to the enemy. We lost two killed and two wounded.

The Monitors went up lu the night and opened on Wagner, and the rebel guns were soon silence!
The Admiral went on board the Paispseo

The Admiral went on board the Palpeo, jo play her under the gnns of Wagner, and came near being taken off by a ten-inch shot. Indications are that the rebels will depend principally on obstructions and the interior line of defenses in the attack to-morrow. The Ir unsides will engage Fort Wagner and keep ner slient while the Monitors and shore batteries engage Fort Sumpter. The wooden fleet and mortar schoolers will engage Fort Mo I rie It will be a grand affair.

Mo I rie It will be a graud affair.

R-bel works on James Island indicate an attempt on the put of the rebels to drive Gillmore off James I-land or to so annoy him as to interiere with the siege of Sumpter.

Washington, August 18. The Herald's special says that last week one of our sconts crossed he river at United States ford and took dinner with some rebels on the Chancellors vile on the ground.

A large gang of negroes were employed in getting out timber for the construction of

Reports in circulation among the rebels
were to the effect that United States and Banks' fords were to be bridged so as to enable Lecto make a rapid arvance upon Dumfries and Fairfax, thereby cutting off our communication with Washington, and forcing us to attack him.

Whether such a movement is still coutemplated by the enemy or not, remains to be de-termined; but it is generally believed in mil-ilary circles. Lee will avail himself of th-opportunity now officed, by the decimated condition of our army, to make a desperate effort for the destruction of the army of the Potomac. It is not at all improbable that the rebels will at:ack us, and we may yet have the anunal struggle upon the plains of Manassa

The Trionne's Washington special states that it is understood that important dispatches, showing the complicity of he Executive of New Yorkand oth rewith the rioters, have been received by the authorities here. It is thought Gov. S-ymour will not persist in following the mistaken course into which he was be-guised by the Woods and their party.

[Telegraphic Correspondence Daily Commercial.] WASHINGTON, August 18, The Republican of to-day amounces that the greatest scavity prevails in the army, in dicating a change of base, and intimates that the policy of the Government is to hold the army of the Roteme in a strong defensive position, while the war is vigorously prostuced elsewhere. Quite a number of furloughs are being granted to its officers.

General Rousseau's mission to Washington is pronouaced a complete success.
